Building on Success:
FOCUS ON
THE FUTURE

Dear Potential Exhibitor,

You are cordially invited to participate in the 2013 APS/CNM/EMC Users Meeting! The theme of this year's event is "Building on Success: Focus on the Future." We hope that this venue will give you and your company an excellent opportunity to build on your own success. As always, there are many exciting events planned for this year's conference, including a meeting banquet held at Morton Arboretum, the Poster Session (exhibitors are encouraged to participate--there's no extra cost!), and a commitment to speak at the opening session by a 2012 Nobel prize winner!

When you register, you'll be asked to create an ID for your company using an e-mail address and a password. **Each company will need only one ID and password to manage all attendees and other exhibit-related selections.** You'll be able to view and change your registration record if needed using your ID and password before the event.

Please **do not** register people coming only to assist with set-up or take down. If you will need gate passes for helpers, please contact me to arrange them at vanni@aps.anl.gov. Space is limited, so please register early. Location requests are considered on a first-received, first-served basis. Don't hesitate to contact me with any questions about this event--I'm happy to help!

Best regards,

Connie Vanni
